## **Self Promotion Video**

**VIS11 - MMED-1057 -19W - Motion Design 1**

**March 29, 2019**

### **Story:**

In my Self Promotion the goal I wanted to achieve was a portfolio style video. A video where I speak about my skills, goals and work within under two minutes. Instead of just stating what I do, I want to give a little inspiration for solo or small budget studios by saying how you don't need expensive material or equipment to have a passion. Also, I want the video to be recording of me, but I also will add B-Clips throughout of different scenes including me filming and some projects I've worked on in the past such as posters. My goal is to make this video quick and simple so whoever views it gets the idea about what I do. The overall impact I want the viewer to get is how much work I've done to get here and to always reach your goals.

### **Checklist:**

1. *DSLR Camera*
2. *Microphone*
3. *A Video editing program to cut between*
4. *Audio Editor If sound needs to be fixed*
5. *Set-Up of what I work with behind me*
6. *Introduction written up and memorized to start the video*
7. *Assets of previous work such as: Photos, Scenes, and Posters*
8. *Storyboard to show the Idea*
9. *Background Music that I've mixed and produced*

### **Music:**

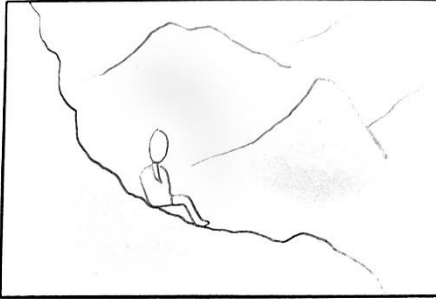

**NEMESIS – LOOK ALIVE**
